

Attendance**ATTENDANCE AREAS 2009-2010**

The Superintendent of Schools is responsible for proposing attendance areas for the district schools. The Superintendent of Schools will be assisted in this task by District/School Operations, the Office of School Facilities, and the Attendance Boundary Committee.

To comply with the mandate of Class Size Reduction, the Office of School Facilities and District/School Operations will provide the Attendance Boundary Committee and the community with proposed attendance boundary changes for schools in 2009-2010. Community input on these boundary changes will be solicited at Regional Community meetings. Individuals who wish to present alternate recommendations will be assisted by Regional Center staff. Any alternate proposals must be reviewed through the same process as the Superintendent's proposals. Community and Attendance Boundary Committee meetings will be held to present the attendance boundaries established for 2009-2010.

The Attendance Boundary Committee will take the following factors into consideration when reviewing proposed attendance areas regarding school boundaries: compliance with Class Size Reduction Mandate, impact on special education programs, use of available student stations within contiguous areas, degree and extent of transportation, programmatic impact due to lack of student housing, reduction of the number of schools students must attend, integrity of feeder systems, assignment of students from new residential developments to specific schools prior to completion of developments, construction of new schools, promotion and maintenance of diverse school enrollments, and prevention, reduction or elimination of racial isolation to the extent practicable.

Staff in District/School Operations, Office of School Facilities, Information Technology Services, Department of Transportation, Research Services, Office of Diversity Compliance, and Office of Intergovernmental Affairs & Grants Administration and Community Services, will assist the Superintendent of Schools in providing data, analyze proposed attendance areas and prepare recommendations for submission to the Board.
