- I. **MAJOR CONCEPTS/CONTENT:** The purpose of this program is to prepare students for employment or advanced training in the sport, recreation, and entertainment marketing and sales industry. The content includes, but is not limited to, employability skills; selling techniques; public relations and publicity; event planning and execution; and licensing, sponsorship, and endorsements.

Listed below are the courses that comprise this program when offered at the secondary level:

8827410 - Sport, Recreation, and Entertainment Essentials
8827420 - Sport, Recreation, and Entertainment Applications
8827430 - Sport, Recreation, and Entertainment Marketing Management

- II. **LABORATORY ACTIVITIES:** Laboratory activities are an integral part of this cluster. Equipment and supplies should be provided to enhance hands-on experiences for students in the chosen sport, recreation, and entertainment occupation.

- III. **SPECIAL NOTE:** DECA, "An Association of Marketing Students" (secondary), and Delta Epsilon Chi, "An Association of Marketing Students" (postsecondary), are the appropriate career and technical student organizations for providing leadership training and for reinforcing specific career and technical skills. Career and Technical Student Organizations, when provided, shall be an integral part of the career and technical instructional program, and the activities of such organizations are defined as part of the curriculum in accordance with Rule 6A-6.065 (8), FAC.

Cooperative training (OJT), 8800410/M899990/0208.9999CP, or Guided Workplace-Learning, 8300430/D886300/1098.8630CP, are highly recommended to use with this program as work-based learning experiences. When OJT is offered, each student is required to have a training agreement and a training plan, signed by the student, parent/

guardian, teacher/coordinator, and employer. The training plan shall include a diverse list of instructional objectives and on-the-job and in-school learning experiences. The workstation shall reflect equipment, skills, and tasks relevant to the occupation the student has chosen as a career goal. The student must receive compensation for work performed.

When Guided Workplace-Learning is offered, the student is allowed to work a maximum of 450 hours and must participate, with the work-based learning site supervisor, in a preplacement conference. A work-based learning plan must be developed to include the learning objectives, methods of learning, activities/responsibilities, time required, provisions for supervision, and method(s) of student evaluation. Students must also meet a minimum of once per week for the purpose of related instruction and developmental activities. Employment may be either paid or unpaid. (For additional information consult the Guided Workplace-Learning framework.)

It is highly recommended that for every 20 students (or portion thereof) enrolled in Marketing OJT and/or Guided Workplace-Learning, the teacher/coordinator be given a minimum of one hour of OJT-coordination release time per day for the purposes of visiting students on the job and managing the cooperative method of instruction.

The teacher/coordinator should visit each training site for the purpose of observation a minimum of once during each grading period, preferably while the student is actually working. A second contact each grading period for the purpose of evaluating the student's progress in attaining the competencies listed in the work-based learning/training plan is highly recommended.

On-the-job activities may be continued as a summer learning experience without classroom instruction for students who participated in the program during the school year immediately preceding the summer assignment.

The OJT course may be taken by a student for one or more semesters at the secondary level enabling the student to earn multiple credits. The specific student performance standards, which the student must achieve to earn credit, must be specified in the OJT training plan.

In accordance with Rule 6A-10.040, FAC., the minimum basic skills grade levels required for postsecondary adult vocational students to exit the programs in this cluster are listed at the program level or at the occupational completion points within the program. These grade level numbers correspond to a grade equivalent score obtained on one of the state designated basic skills examinations. If a student does not meet the basic skills level required for completion of the program, remediation should be provided concurrently through Vocational Preparatory Instruction (VPI). Please refer to the Rule for exemptions.

When a secondary student with a disability is enrolled in a vocational class with modifications to the curriculum framework, the particular outcomes and student performance standards, which the student must master to earn credit, must be specified on an individual basis. The job or jobs for which the student is being trained should be reflected in the student's desired postschool outcome statement on the Transition Individual Educational Plan (Transition IEP).

SCANS Competencies: Instructional strategies for this program must include methods that require students to identify, organize, and use resources appropriately; to work with each other cooperatively and productively; to acquire and use information; to understand social, organizational, and technological systems; and to work with a variety of tools and equipment. Instructional strategies must also incorporate methods to improve students' personal qualities, higher-order critical thinking skills, and problem-solving, technical, and literacy skills.

To be transferable statewide between institutions, this program/course must have been reviewed, and a "transfer value" assigned the curriculum content by the appropriate Statewide Course Numbering System discipline committee. This does not preclude institutions from developing specific program or course articulation agreements with each other.

When offered at the postsecondary adult vocational level, this program may be offered in courses. Vocational credit shall be awarded to the student on a transcript in accordance with Section 230.643 F. S.
